Rhino GP RELEASE

Technical Data Sheet

Issue Date: 6th July 2002
Revised Date: 28-November-2008

PRODUCT DESCRIPTION

Rhino GP Release is a specially formulated, high performance release agent used in conjunction with Rhino Linings polyurethanes, hardcoats, spray and pour foam chemical systems.

PRODUCT SPECIFICATIONS

Appearance:	Colourless
Mix Ratio – By Weight	N/A
Gel Time	N/A
De-Mould Time	N/A
Full Cure Time @25°C	N/A
Oven Cured @ 70°C	N/A

PROCESSING CHARACTERISTICS

Ensure mould or natural surface is clean and free from dirt, dust and other contaminants.

Apply Rhino GP Release using a standard air spray gun. Rhino GP Release can also be applied using a brush, rag or pump spray pack. Apply release and allow sufficient time for the release to “Flash off” before commencing job.

PRE-CONDITIONING MATERIAL

Rhino GP Release should be stirred or shaken well prior to use.

STORAGE OF MATERIALS

Drums should be stored in a cool, well-ventilated area away from direct heat sources. Store away from alkalis and foodstuffs. Vent drums carefully.

All personnel handling this material should be fully conversant with the relevant M.S.D.S for this product.
